

Speedpass Retirement Project

To the Employee on Duty,

For the retirement of the Speedpass™ key tag program, an authorized LSI representative will conduct a site survey and complete the following:

- Document the Speedpass™ key tag assets on-site
- Take photos of dispensers, car wash kiosk, c-store pin pad and MID where Speedpass™ assets are present

This process should take a short amount of time and is designed to limit the impact to the site. Thank you for allowing the individual presenting this letter to conduct the survey. **We greatly appreciate your cooperation.**

If you have any questions, please contact your ExxonMobil Branded Wholesalers.

Please note this Speedpass™ survey is separate from your regular Site Experience evaluations.

Sincerely,
ExxonMobil
